Bringing the future of technology to life

About Exyte

Exyte is a global leader in the design, engineering, and delivery of ultra-clean and sustainable facilities for high-tech industries. With a history of more than 100 years, the company has developed a unique expertise in controlled and regulated environments. Exyte has a truly global footprint, serving the most technically demanding clients in markets such as semiconductors, batteries, pharmaceuticals, biotechnology, and data centers. The company offers a full range of services from consulting to the managing of turnkey solutions – delivered to the highest quality and safety standards. Solving the most complex challenges, Exyte forges trusted, long-lasting relationships with its clients. In 2022, Exyte generated sales of EUR 7.4 billion with around 9,000 highly experienced and motivated employees. The company is ideally positioned to further strengthen its market leadership with its broad industry insight and its exceptional talents.

Global Business Unit Data Centers

Our design and construction delivery teams have delivered over 1000 MW of data center infrastructure worldwide and has become a go-to-company for global data center projects. The Exyte Data Center Group combines 20 years of data center experience with focus on cloud, hyperscale, colocation and edge data center business. Our experienced specialists develop 'state-of-the-art' solutions for customers' facilities – from consulting, concept and design to full turnkey project realization. The cost and schedule requirements of our clients drive Exyte's development of industry leading innovative solutions for award-winning Data Center concepts like modular solutions, multi-tiered DC environments and high-density concepts. With a clear focus on time-to-market, while providing cost and quality advantages for our clients and partners, these concepts became reality in several projects around the globe.

Full Scope of Services

Example: Cloud/Hyperscale Data Center

We believe innovation is the key to delivering exceptional results. Our team is equipped with the latest technologies and processes to tackle even the most complex construction challenges.

Our data center experts have years of experience in the field and are dedicated to finding innovative solutions to any issue that may arise.

Why choose Exyte for your Datacenter

What our Clients Value Most!

Exyte delivers exceptional project management and execution that reduces cost and risks, ensuring project delivery on time and in budget. Our commitment to international quality standards, cost-effective solutions, and safe construction practices are proven in hundreds of reference projects in the last 20 years. We offer flexibility, compliance, and innovation in all our projects, providing our clients with the best value for their investment.

Schedule - Predictable Delivery to Milestones

Delivering world-class data centers on-time, every time. Our expertise in managing schedule risk and best-in-class schedule management capability ensures consistent delivery of projects to milestones.

Cost - Predictable Value for Spend

Exyte is committed to delivering cost-effective solutions without compromising quality. Our team's expertise in value engineering allows us to identify opportunities to reduce costs while maintaining the integrity of your project.

Safety - The Foundation of our Work!

Exyte is dedicated to the highest safety standards for our employees, subcontractors and clients. Our Target Zero and Beyond program prioritizes preventing injuries, occupational illnesses, pollution, and operational losses. We embody our core value of People and Environment throughout all our operations, ensuring robust global safety standards are met. Safety and Environmental Protection is non-negotiable at Exyte..
